Using OpenXC To determine the current gear and support for USB webcams in most Android devices, you can make a relatively inexpensive aftermarket system. (It's often pre-installed on phones and tablets, so you might already have it.) Be aware that you may have probably asked to sign in with your Google account or create one if you're not already. You need to sign in or create an account complete the purchase. Photo courtesy: Kim Kullish / Getty Images Select any free apps or resale you're interested in seeing a short description of the app. Read on to learn how and where to download apps. As with Google Play, it is often preinstalled on phones. How it works Downloading apps When you download a file over the network, whether from a store or elsewhere, a file hosted on an online server is copied to your computer. Photo courtesy: SOPA Immagini / Getty Images Open the Google Play store on your device and then search for the specific name of the app or any broader category you might be interested in. Using Apple App Store Apple App Store Host apps designed for iPhone, iPad, and other Apple devices. GitHub repository: github.com/openxc/rearview-camera The rear camera is an Android app that uses OpenXC and a standard USB webcam to add a rear camera to a car that hasn't been equipped with one from the factory. Click on the app result to learn more. This application is intended as proof of concept. With so many apps to choose from, however, it can be a bit daunting if you don't know how to download them. Fortunately, downloading apps can be fast, simple and simple, regardless of the type of technology you're using. Charles Reitz developed the first version of this app as a summer intern at Ford in 2012. Photo Courtesy: Picture Alliance/Getty Images OTHER FROM QUESTIONSANSWERED.NET To do this, you may need another program, such as WinZip or 7-Zip, to open it, even with the right or left mouse button if your device has the ability to open ZIP files. Like other app stores, it allows you to filter apps by category, including featured apps, newer apps, popular apps, theme categories and more. If you've ever been online, on a phone or on a computer, you've probably downloaded files many times before. Never mount anything on the dashboard that will obstruct the driver's view. While the rear camera app can help increase visibility, the OpenXC platform does not make any claims of a security advantage.
